Orion 105 (50x40 cm - 19 $\frac{5}{8}$ "x15 $\frac{3}{4}$ "

The sink and worktop, integrated.

Orion embodies perfect continuity between the worktop and sink.

Lapitec[®] slabs seamlessly transform into Orion, maintaining the colour of the worktop while ensuring practicality and an easy-to-clean surface. It's the perfect solution for those who want a minimalist kitchen with extraordinary performance.

Tested by **Lapitec**[®], Orion is composed of acrylic resin and ceramic powder, guaranteeing perfect chromatic harmony between the sink and matching worktop. Orion comes in two models, **Orion 130** and **Orion 105**, to offer the option of a double bowl sink. The curvature of the angles has been designed to be easy to clean, with excellent aesthetic results. Orion comes with a pop-up drain stopper, a **Lapitec**[®] branded overflow drain, a siphon and installation instructions.
